The website (WS)

We await Monday's discussion on the Data Processing act before placing the directory on the WS.

Now that Bill is back in circulation and my issues on the Isle of Wight have quietened down, we will start finalising work on the Google Drive and other outstanding ideas for the WS.

Photos.

When ever we need to create adverts, we always need fresh photos and articles. So please if you have interesting (action) photos, please send them on to me.

Google Drive.

We intend to have an archive of Club meeting minutes, photos and anything else that is worth keeping. Possibly the Club directory. It should be understood that this will be passworded so only Club Members can assess this material,
